Robotime Technology (Suzhou) Co., Ltd. Room 607, Building A, 5# XingHan Road, Suzhou

Request for Confidentiality

Date: <u>2013-09-28</u>	
Subject: Confidentiality Request for: FCC ID:2AA4AW002	
Pursuant to FCC 47 CRF 0.457(d) and 0.459 and IC RSP-100, Section 10, the applicant requests that a part of the subject FCC application be held confidential.	
Short Term Exte Short Term Permanent*¹ Short Term Permanent Short Term Test	k Diagrams rnal Photos nal Photos ration Description/Theory of Operation s List & Placement/BOM e-Up Procedure ematics Setup Photos 's Manual al effort in developing this product and it is one of the fily available to "competition" would negate the
financial hardship. Permanent Confidentiality: The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public	
review due to materials that contain trade secrets and proprietary information not customarily released to the public.	
Short-Term Confidentiality: The applicant requests the exhibits selected above as short term confidential be withheld from public view for a period of(specify number of days not to exceed 180)^2 days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public. Applicant is also aware that they are responsible to notify ACB in the event information regarding the product or the product is made available to the public. ACB will then release the documents listed above for public disclosure pursuant to FCC Public Notice DA 04-1705.	
By: Engineer (Signature/Title ³)	(Print name)

¹ - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."

⁻ Please refer to http://acbcert.com/documents/misc-docs/Memo-Short-Term-Vs-Standard-Confidentiality.pdf for complete details.

³ - Must be signed by applicant contact given for applicant on the FCC site, or by the authorized agent if an appropriate authorized agent letter has been provided. Letters should be placed on appropriate letterhead.
